

Farm Insurance Review **CHECKLIST**

As a specialist agricultural insurer, we believe farmers cannot risk being over or underinsured.

Staying true to our vision of protecting and enhancing a sustainable future for agricultural communities, here are some of the things to consider when reviewing your farm insurance*.

To update your insurance,

Farm Insurance

What has changed on your farm and at home since you last reviewed your insurance?

BUILDINGS

Your home and farm buildings

Have you made any improvements? This could include new fencing, garages, swimming pools etc.

Have you renovated and/or altered any existing buildings?

Have you erected and/or purchased any new buildings (including sheds and silos)?

Have you planned any construction?

Are your insured sums still adequate for replacement considering your location and the condition of the building?

Have you considered Achmea Australia's Guarantee Against Underinsurance (GAU) for your buildings to reduce your risk of underinsurance? Contact us to find out more about this optional cover.

INVENTORY

Household contents

Have you purchased or sold any new household items or valuables? Consider listing valuable items separately on your policy.

Property

Is the insured sum adequate for your livestock? Have you purchased or sold any livestock?

Do you have any working dogs?

Do you need to revisit your hay sums insured?

Have you kept a log of repairs, overhaul or replacement of any pumps or associated equipment?

Have you purchased, sold or renovated any other new equipment?

Is the insured sum for your inventory items still accurate?

Do you need to insure any fencing on farm, power poles or underground electrical networks?

Do you have any new purchases planned for the coming year?

Have there been any significant changes in grain, livestock or commodity pricing since your last insurance review?

If so, you may want to review the adequacy of your inventory limits.

BUSINESS INTERRUPTION

Do you have Business Interruption cover?

If there is a loss or damage to your buildings, contents or farm machinery, some things to consider include: what would the impact on your income be?

How quickly could you get back into business? Rebuilding can sometimes take longer than expected and to cover the loss of income while your business is out of action, appropriate Business Interruption cover can help protect your livelihood.

If the answer to any of the questions is yes, please contact us today to request a review and/or update of your policy:

Have your business activities changed?

Has your business income changed significantly?

Do you need to insure your agistment costs or agistment income for fire?

Do you have rental properties and receive rental income with a formalised lease?

VEHICLES

All vehicles and self-propelled equipment that are registered with a number plate, must be listed on your policy with Achmea Australia.

Have you sold and/or purchased any new vehicles, machinery or equipment?

Have you added any accessories to the vehicles, machinery or equipment items that need to be insured?

Have you added any accessories to the vehicles, machinery or equipment items that need to be insured?

Have you considered whether market value or agreed value is right for your vehicles, and checked the sum for your vehicles still accurate?

Has the use of your vehicles and/or your equipment changed (contract work, private use or commercial use)?

LIABILITY

Have you changed any of your business activities?

- Any additional business activities commenced or planned?

- If you have employees, is there any change in the number of employees?

- Do you have any new land acquisitions planned in coming year?

- Is there any change in stock numbers?

- Have you changed entities and/or added any new entities to your business?

- Have you changed labour hire companies?

If you participate in any shared farming activities and lease on other people's land, please advise us to ensure these are noted on your policy.

Do you perform any contracting that is required to be noted?

Do you require liability extension of cover for airstrips, aerial spraying, or contract spraying activities?

Are you regularly hosting farm visitors (payment or otherwise) or conducting any accommodation activities on farm (camping, fishing, motorbike riding)?

*Note, this is a general summary of items to consider reviewing and should not be treated as an exhaustive list.
